FALL 1941 — PEONY PRICE LIST — SPRING 1942

Standard size plants as adopted by the Growers Association, having three to five eyes with well-balanced root system, vigorous plants needing no coddling to produce strong, satisfactory growth. Divisions made from two or three-year-old plants, thus insuring healthy stock. Larger plants or clumps for immediate effect can be furnished in most varieties. Special prices upon application.

In addition to the prices shown below for the varieties offered, there is also given the American Peony Society rating as to quality, the approximate season of bloom and the general color classification. Under Season "E" indicates early, "M" midseason and "L" late; for Color "W" indicates white, "LP" light pink, "DP" dark pink and "R" red.
